

# Drug Information Brochure

You will select one (1) drug to create a brochure that you might find in Student Services.

In order for your brochure to be complete, you must thoroughly cover the following which will include an anti-drug persuasion:

1. Name of drug
2. Category of drug
3. History of how the drug came to be popular
  - a. Cover when and where the drug was first used and its path to use today
4. How the drug is made, including the source of ingredients
5. All methods for how the drug is consumed
6. Popular street names (minimum of 5)
7. Short-term effects
8. Long-term effects
9. Frequency of use today
10. Recent increase or decrease in the use of the drug today

- a. Include a graph showing this

11. Treatment for addiction to this drug
  - a. Include information about relapse and recovery rates
12. Quoted expert statement about the drug and its use
13. Quoted user statement about the drug and its use

14. Minimum of 2 pictures of the drug and 1 additional of your choosing
15. List 2 places to get help with addiction.
16. Works cited, minimum of 2, plus citation for all images (Submitted on separate page)

**All work MUST be written in your own words. DO NOT COPY AND PASTE. Any copying and pasting is plagiarism and is in violation of the academic honesty policy and will be treated as such.**

## Rubric for Drug Information Brochure

	<b>Points 10</b>	<b>Points 9 8</b>	<b>Points 7 6</b>	<b>Points 5 4 3 2 1 0</b>
<b>Goal of Assignment</b>	Complete information given for drug with anti-drug message	Offers informative information only	Partial information given, not complete	Poor information included, very incomplete
	<b>Points 30</b>	<b>Points 29 28 27 26</b>	<b>Points 25 24 23 22 21 20</b>	<b>Points 19 18 17 16 15 ...</b>
<b>Areas of Information Included from list of 16, including subcategories</b>	All listed items included in brochure 1 - 16	Most listed items included in brochure (1-3 items missing)	Several missing items from list (4-6 items missing)	Many items missing from list (7 or more items missing)
	<b>Points 15</b>	<b>Points 14 13</b>	<b>Points 12 11</b>	<b>Points 10 9 8 7...</b>
<b>Visually Appealing</b>	Use of visuals and creative use of information draws in reader's attention. Graphs and visuals included.	Use of good visuals, somewhat attention getting. Most graphs and visuals included.	Ordinary, lacking in visual appeal. Missing visuals to draw in attention of reader.	Severely lacking or overuse of visuals. Does not adequately convey or hinders message.
	<b>Points 10</b>	<b>Points 9 8</b>	<b>Points 7 6</b>	<b>Points 5 4 3 2 1 0</b>
<b>Works Cited and Complete Information on Addiction Treatment Resources</b>	Works cited for all pictures. Additional citing for body of brochure. Two treatment information resources.	Some works cited included. One treatment information resource.	Minimum of works cited for visuals. One treatment information resource.	Missing or incomplete works cited. No treatment information resources.

**Total Points for Project** \_\_\_\_\_ / 65

What might seem like an attractive package of escapism and fun will eventually lead you onto the road of helpless addiction, not to mention jail and even death.

• How about a packet of strong  
ice to go along? •

Since 2009, the number of youth drug abusers has risen and methamphetamine is the most commonly abused drug amongst youth drug abusers, followed by heroin.

## METHAMPHETAMINE

### Also known as

'Ice', Glass, Crystal, Speed, 'Ya Ba'

### What's This?

Methamphetamine is a highly addictive drug and usually comes in crystallised form. It is more commonly known as 'ice' in Singapore. It is a strong stimulant and is odourless and colourless.

Methamphetamine also comes in tablet form known as 'Ya Ba'. The stimulant powder in 'Ya Ba' is produced from the ephedrine plant. Most of the 'Ya Ba' tablets found are embossed with the 'WY' logo and are green or orange in colour.

Methamphetamine has a very strong effect on the central nervous system. The abuser feels anxious and restless. Abusers may also tend to act in a violent manner.

### Effects and Dangers

Increased heart rate and body temperature

Liver and kidney diseases

Fits, stroke and death

Abnormal behaviour with mood swings, confusion, delusion and hallucination

Damage to heart and nerves

Anxiety and irritability

### Withdrawal Symptoms

Extreme tiredness and hunger

Insomnia (difficulty in sleeping)

Anxiety, depression and irritability

### Penalties

Possession or consumption of Methamphetamine:  
Up to 10 years of imprisonment or \$20,000 fine or BOTH

Legal traffic, import or export of Methamphetamine of more than 250 grams: DEATH

DRUGS  
ARE  
DANGEROUS  
TEMPTATIONS

## НАШИТЕ УСЛУГИ:

### ТЕЛЕФОННО И ИНТЕРНЕТ КОНСУЛТИРАНЕ:

- проблеми, свързани с употребата на наркотици и алкохол;
- как да се предпазвам при употреба на наркотици;
- зависимост от психоактивни вещества;
- консултиране по спешност (bad trip, flash-back, прегозиране).

### АКТУАЛНА ИНФОРМАЦИЯ ЗА ЕФЕКТИТЕ И РИСКОВЕТЕ ОТ УПОТРЕБАТА НА НАРКОТИЦИ И АЛКОХОЛ:

- интерактивна галерия на ефектите от употребата на наркотици и алкохол;
- азбука на наркотиците;
- законът и наркотиците;
- често задавани въпроси;
- митове за наркотиците.

### НАСОЧВАНЕ КЪМ ЛЕЧЕБНИ И РЕХАБИЛИТАЦИОННИ ПРОГРАМИ НА ТЕРИТОРИЯТА НА ЦЯЛАТА СТРАНА:

- центрове и програми за информация и превенция;
- места за детоксификация;
- програми за медикаментозно асистирано лечение на опиева зависимост с метагон, субститол, бупренорфин;
- рехабилитационни програми;
- сдружения на родители.

### ПРЕПОРЪКИ ЗА РОДИТЕЛИ И БЛИЗКИ:

- как да разговаряме с децата за наркотиците и алкохола;
- как да разберем дали детето ни има проблем с веществата.

### МОДУЛНА ПРОГРАМА ЗА ИНТЕРАКТИВНО ОБУЧЕНИЕ НА УЧЕНИЦИ

### МОДУЛНО ОБУЧЕНИЕ ЗА РОДИТЕЛИ И УЧИТЕЛИ

## КАНАЛИ ЗА ИНФОРМИРАНЕ И КОНСУЛТИРАНЕ:

Запознай се с наркотиците, за да не ги обикнеш

# SOLUTIONS

Comfort, support, and protection are what the extremely panicked or anxious user needs most during an LSD problem. If the drug user needs professional help they can call Youth Line, National Drugs Helpline or even Life Line. Parents, teachers and youth workers are, in theory, the first people who should be able to provide information about LSD. Many young people are afraid to approach these groups, but it is worth stressing that drug awareness organizations are there to provide information about drugs as well as to offer help to those who have drug problems.
